Hepato-Pancreato-Biliary Association

Dutch Highlights @ E-AHPBA 2017

Avondsymposium

<i>Tijd</i>	Donderdagavond 7 december 2017 vanaf 18.00 uur
<i>Locatie</i>	Slot Zeist
<i>Accreditatie</i>	Accreditatie is aangevraagd bij de NVvH
<i>Kosten</i>	Er zijn géén kosten verbonden aan dit symposium
<i>Aanmelding</i>	Via Mw. F. Asnnosi (f.asnnosi@umcutrecht.nl)

<i>Organisatie</i>	E. Steller H.C. van Santvoort W.W. te Riele I.Q. Molenaar M.G. Besselink J. Hagendoorn
--------------------	---

Mede namens de voorzitters van de individuele werkgroepen:

J. Klaase (*Werkgroep Leverchirurgie*)

H. van Goor (*Pancreatitis Werkgroep Nederland*)

O.R.C. Busch (*Dutch Pancreatic Cancer Group*)

H.J. Klümpen (*Dutch Hepatocellular and Cholangiocarcinoma Group*)

Dit symposium wordt mede mogelijk gemaakt door:

PROGRAMMA

- 18.00 - 18.55** **Ontvangst met buffet**
- 18.55 - 19.00** **Welkomstwoord**
Marc Besselink (AMC)
- 19.00 - 19.50** **Hepatobiliair (presentaties 7+3 min)**
Voorzitters: Dirk Grunhagen (EMC), Frederik Hoogwater (UMCG)
- 19.00 - 19.10 Portal vein embolization does not result in microvascular flow differences between embolized and non-embolized lobes
Uz et al (AMC)
- 19.10 - 19.20 The liver-first approach for synchronous colorectal liver metastases: outcomes of a ten-year experience
de Jong et al (MUMC)
- 19.20 - 19.30 Longitudinal study of hepatocellular adenoma formation and behavior in patients with hepatic GSD
Haring et al (UMCG)
- 19.30 - 19.40 Preoperative endoscopic versus percutaneous transhepatic biliary drainage in resectable perihilar cholangiocarcinoma: a randomized controlled trial
Coelen et al (AMC)
- 19.40 - 19.50 The effect of histopathological growth patterns on recurrence after resection of colorectal liver metastasis
Galjart et al (Erasmus MC)
- 19.50 - 20.10** **Non-Dutch Highlights “Hepatobiliair”**
Roeland de Wilde (JBZ/UMC Utrecht)

PROGRAMMA

20.30 - 21.20

Pancreas (presentaties 7+3 min)

Voorzitters: Hjalmar van Santvoort (St. Antonius/UMC Utrecht (RAKU)), Rutger-Jan Swijnenburg (LUMC)

20.30 – 20.40

Minimally invasive versus open distal pancreatectomy for ductal adenocarcinoma (DIPLOMA): a pan-European propensity score matched study
van Hilst et al (AMC)

20.40 – 20.50

The role of abdominal drainage in pancreatic resection – A multicenter validation for early drain removal
Linneman et al (Isala Zwolle)

20.50 – 21.00

Postoperative complications and outcomes in pancreatic surgery in the pediatric, adolescent, and adult population
Pranger et al (UMCG)

21.00 – 21.10

Circulating micro-RNAs as dynamic biomarkers of response to treatment with FOLFIRINOX in advanced pancreatic ductal adenocarcinoma
Meijer et al (VUMC)

21.10 - 21.20

Diagnostic value of ultra-deep targeted next-generation sequencing in patients with suspect pancreatic and periampullary lesions
Sibinga Mulder et al (LUMC)

21.20 - 21.40

Non Dutch Highlights “Pancreas”

Anton Engelsman (AMC)

21.40 - 22.30

Sluiting en borrel

Quintus Molenaar (UMC Utrecht/St. Antonius (RAKU)), namens Dutch HPB Association (DHPBA)
